Yes. Everything on ftp except for 104 Cabot response is the data previously submitted, from what I understand.

Yes, they can check the ATSDR summary table.

Rich-

I still need clarification on one issue. When you refer to EPA/ATSDR* data you mean everything this currently on the ftp site (with the exception of the Cabot Oil - EPA Response 104 folder)? Also, do we want them to review the ATSDR table and check the source files if available?

Thanks-
Steph
